

CONFLUENT CLOUD SUB-PROCESSORS

Last Modified September 2020

Infrastructure Providers

Confluent may engage the following entities to process personal data in your use of Confluent Cloud or other cloud-based services:

Sub-Processors	Corporate Location	Services Performed
Amazon Web Services	United States	Data storage and processing
Google Cloud Platform	United States	Data storage and processing
Microsoft Azure	United States	Data storage and processing

Other Third-Party Subprocessors

While Confluent will never ask you to do so, in the unlikely event you provide Customer Data as part of a support request, Confluent also engages the following entities which may have access to or process personal data:

Sub-Processors	Corporate Location	Services Performed
PagerDuty	United States	Alert monitoring
Slack	United States	Alert monitoring
Atlassian	Australia	Bug Reporting / Issue Tracking
Zendesk	United States	Customer Support Portal
SendSafely	United States	Customer Support Portal

Affiliates

The following entities are Confluent Affiliates. They may function as Subprocessors to provide the Services.
